Subject: Recent Noctiluca blooms in Puget Sound
Date: Friday, June 08, 2018 10:12:48 AM

Greetings,

Our [Eyes Over Puget Sound](#) and [BEACH monitoring](#) programs have been observing a Noctiluca bloom in multiple parts of Puget Sound this week. We have put together a new Puget Sound Nutrient Watch blog with pictures, a video, and descriptions of the bloom. There are some helpful links in the blog for you to learn more about it: <http://ecologywa.blogspot.com/2018/06/puget-sound-nutrient-watch-algal-blooms.html>

There was even a story about it on the June 7th's evening news on KIRO and KING5 has a short story on it. Here are links to these stories:
